Hiss Josephine Refley. The "Twelfth Night" performance at the Opera House is looked forward to with much interest and many seats have been secared. The following notice of Miss Josephine Reiley is taken from the

Chicago Times:

"Miss Josephine Reiley is a native of Uncinnati, having been educated in the Queen Chy, Early in life sue gave evidence of the possession of great dramati talent, and availed herself of every opportunity afforded for its development. After long and careful study under the very best masters to be found, she made the very best masters to be found, and made the very best masters to be found, and made the very best masters to be found, and made the very best masters to be found, and made the very best masters to be found, and made the very best masters to be found, and made the under the under her works, and secured a most pronounced success. The fact that Mr. R. E. J. Mies, the well known manager of that house, deemed her worthy to make her initial appearance in his excellent theatre, and under his supervision is of sufficient endorsement of her merits. Then followed three years of patient study, the results of which are now being offered to the public in full confidence that the verdict will be a most favorable one. During her present tour thus far she has achieved a most pronounced success. No more richly endowed sapirant for dramatic honors had ever made a debut, and no debut ante has ever achieved a more pronounced success than Misz Josephine Belley, and all without the aid of adventitious, persistent, sensational advertising such as is generally resorted to in such enterprises, but through the force of inherent genius, developed by persistent, sustained study in the very best school."
